Detailed Action

The following is responsive to applicant's amendment received July 25, 2005.

Claims 29-34 are cancelled. Claims 1-28 and 35-46 are currently pending.

The previous claim rejection under 35 USC 112, second paragraph, set forth in paragraph 1 of the office action mailed May 4, 2005 is withdrawn in view of applicant's amendment and the remarks contained therein.

The previous indication of allowability of claims 44-46 in the office action mailed May 4, 2005 is withdrawn in view of the following new ground(s) of rejection.

New Ground(s) of Rejection

Claim Rejection(s)—35 USC 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 44-46 are rejected under 35 U.S.C. 102(a) or (b) as being anticipated by the English translation of JP 9 239 396 ('396).

JP '396 discloses combining, into a solution, 2 and 4,5-trichlorophenol, hydrogen peroxide, peroxidase, phosphate buffer solution (pH 5.5) and a chitosan solution of hydrochloric acid. Please see [0021].

Art Unit: 1614

JP '396 also disclose combining, into a solution, 6-dichlorophenol, hydrogen peroxide, peroxidase, phosphate buffer solution (pH 5.5) and a chitosan solution of hydrochloric acid.

Please see [0026].

The claims are anticipated by JP '396 because JP '396 teach applicant's claimed method steps. Therefore, modification of the chitosan would be inherent.

Conclusion

Claims 44-46 are rejected.
